WORK EXPERIENCE

Junior front-end web developer
Open summer of code - OSOC 2022 | July 2022
- Build an interactive and easy-to-use web tool for public administrators to create and implement standardized procedures
- This web tool is part of a broader effort to implement Belgium's first E-wallet.

Junior full stack web developer
Le Wagon Brussels | Oct 2021 - Apr 2022
- Build BookBox a book swapping app, with a social network orientation.
- Using technologies like Ruby on Rails, Postgresql, and Tailwind.
- In charge of coordinating my team's work and tasks using Github.

Freelancer
Helios Web Development | Feb 2020 - Sept 2021
- Design and development of static websites for small businesses, using JavaScript, React and GatsbyJS
- Social media management for small businesses.

EDUCATIONAL HISTORY

Le Wagon Brussels
Web development bootcamp | Oct 2021 - Marc 2022
- Back-end web development: Ruby, Ruby on Rails
- Front-end web development: JS, HTML5, CSS3, Bootsrap (Tailwind on my own)
- Databases: Postregesql
- Git

Universidad Privada Boliviana
Economics | January 2005 - January 2010
- Focus on development, macroeconomics, and econometrics.
